

UC-MEXICO WORKSHOP

JANUARY 28, 2014

QUESTIONS FOR BREAKOUT SESSIONS

1. What are some opportunities for quick, high impact activities that we could do in the near term that would create visibility and excitement for the initiative?
2. What are some more long-term binational opportunities, not just in terms of research collaborations, but also student exchanges, extension-type offerings, cultural exchange, etc?
3. What are some of the ways we can bring the existing, collective strengths and resources of both UC and Mexican academic communities to bear on issues of mutual concern to UC, California, and Mexico? That is, what kind of resources -such as infrastructure, facilities, cutting-edge knowledge -does each entity already have that could strengthen our binational programs and partnerships?
