## Princeton and Williams still top U.S. News college rankings — but new formula scrambles the annual lists

“It will take time to reverse decades of deference to traditional assumptions of institutional quality,” Kim A. Wilcox, chancellor of UC-Riverside, said in a statement. “I’m heartened that more university ranking systems are beginning to recognize diversity, social mobility, and student success as hallmarks of a what make a great university — as opposed to exclusivity and wealth as primary measures.”

# Highlights:

## *U.S. News 2019 Rankings:*

- ✓ #35 among all public universities
- ✓ #1 fastest-rising university in the nation – moved up 39 positions from #124 to #85
- ✓ #3 national university supporting “student social mobility”

## *Washington Monthly 2019 Rankings:*

- ✓ # 15 among public universities

A photograph of a university campus. In the foreground, large, white, three-dimensional letters spell out 'UNIVERSITY'. The 'U' is particularly large and features a stylized sunburst or starburst design. In the background, a tall, white, modern clock tower rises against a cloudy sky. The scene is set outdoors with trees and a paved area.
